Sprint Retrospective

Sprint 6

(May 24, 2025 – May 30, 2025)

What went well:

- We finally finished and caught up to our backlogs from sprint 3 and 4.

What could be improved:

- Continue, polish, and finish the backend and UI of our system.

What needs to be done:

- We will proceed to the sprint 7.
- The sprint that will be covered in sprint 7 are:
 - o Backlogs from sprint 6, which is backend logic integration.
 - o The redistributed tasks: API integration, UI/UX design, and CSS styling
